Safety and Security Interfaces and Interactions

Joe Rivers (USNRC)

April 26, 2015

Importance of Safety/Security Interface

- Ineffective management of safety/security interface could result in:
 - Delays of scheduled activities
 - Unintended security vulnerabilities
 - Unintended impacts to safety systems
 - Unintended impacts to emergency response systems

Related Issue

- Safety and emergency response assume that adequate security is in place.

Safety and Security Bring Insights to Each Other

- Target set cut sets inform FoF development of target sets
- Security indicators may inform the need to alter plant operations
- Similarities in modeling tools
